Nintendo Game Boy Color - 2-Player

The link cable for the Game Boy allows two people to play two-player games. The requirement is that both players insert the same Game Pak into their Game Boy, and the Game Pak must feature a two-player mode (the packaging of these games is marked with the appropriate symbol). The link cable is connected to the left side of Game Boy through the sockets especially provided for it.

shortname	`gbc2players`
emulator/core(s)	libretro/tgbdual
rom format(s)	`.gbc .zip .7z`

Emulators

libretro/tgbdual

TGB Dual is an open source (GPLv2) GB/GBC emulator with game link cable support.

We use the latest libretro core. See the official documentation for more information.

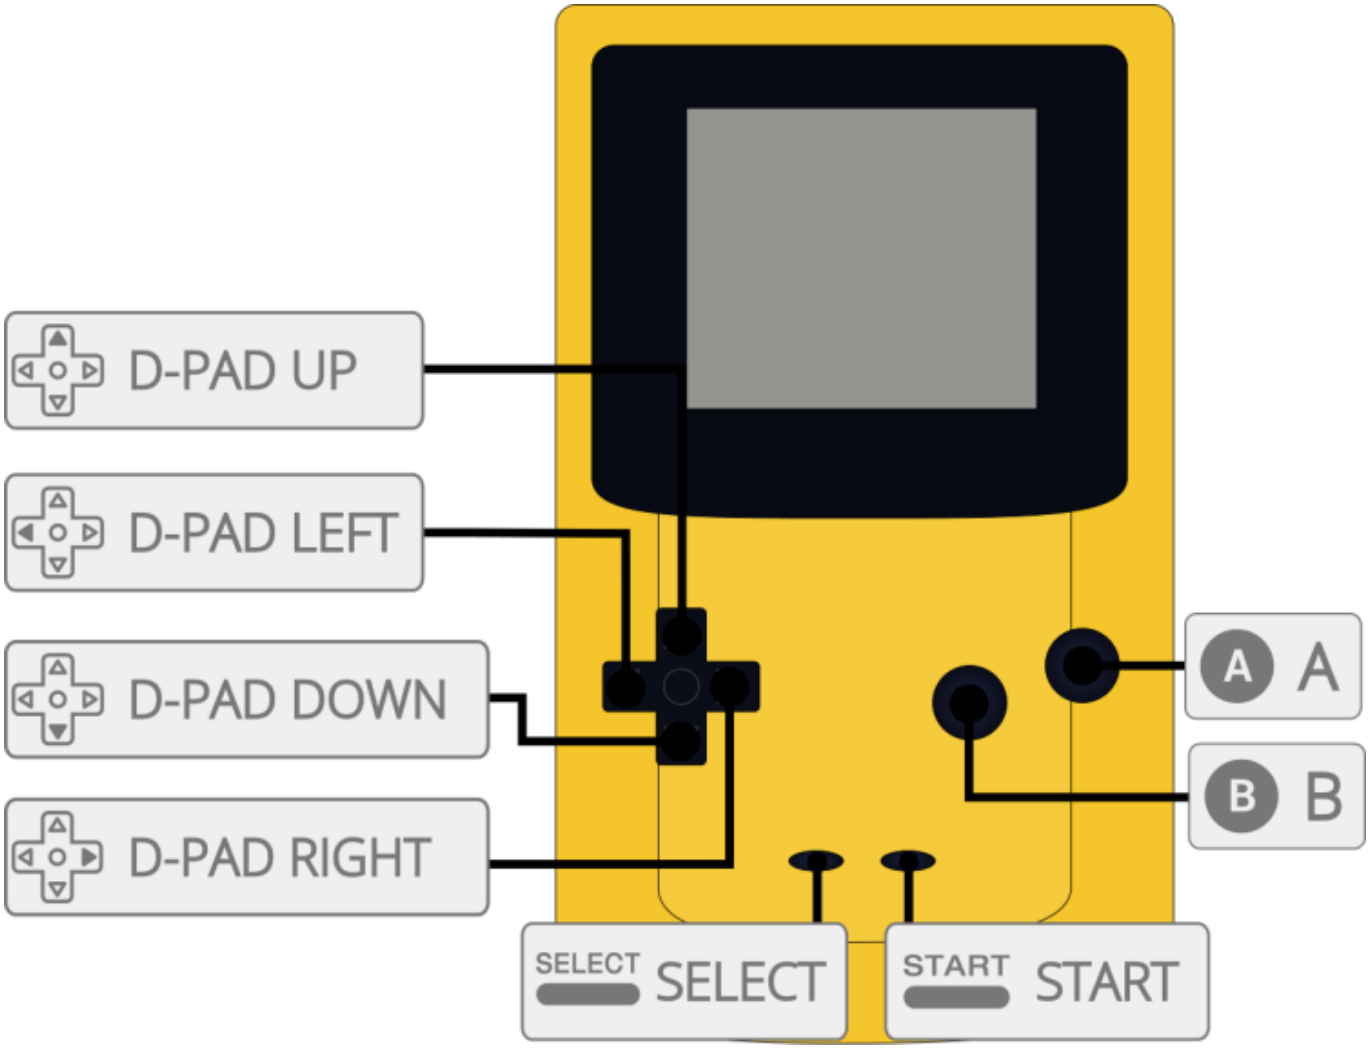

ROMs

Place your Game Boy Color ROMs in `/userdata/roms/gbc2players/`.

Check the list of multiplayer Game Boy games to find compatible games.

Controls

The default button mapping to the Game Boy Color is as following:
