

Jazz Jackrabbit 2

Jazz Jackrabbit 2 (1998) by Epic MegaGames / Orange Games is a colorful side-scrolling platformer featuring the green space rabbit Jazz Jackrabbit and friends. Batocera uses **Jazz2::Native**, an open-source reimplementaion of the game engine that adds widescreen support, modern rendering, gamepad support and other improvements while requiring the original game files. This system scrapes metadata for the “ports” group(s) and loads the jazz2 set from the currently selected theme, if available. Grouped with the “ports” group of systems.

Quick reference
